Hospitalization, Surgery or Anesthesia Authorization

As owner or agent of the pet described above, I authorize Animal Crackers veterinary Clinic to perform any diagnostic, therapeutic, anesthetic, emergency and surgical procedures necessary for treating and maintaining my pets health and well being. While I expect all procedures to be performed to the best of the staff's abilities, I realize the hospital makes no guarantee or warranty regarding the results. If my animal should injure itself, escape, become ill or die, i won't hold Animal Crackers Veterinary Clinic and its employees responsible. I expect the hospital to use reasonable precautions to ensure my pet's safety and agree to pay in full when the animal is discharged.

I give my consent to Animal Crackers Veterinary Clinic to perform the following procedures :

Owner or Agent for the pet

Date

All animals undergoing anesthetic procedures will have pre-anesthetic blood work performed prior to the procedure. This laboratory work is important because pre-existing conditions can cause problems with anesthesia as well as recovery. Tests are based on the animal's age as well as previous medical history.

Pets under 6 years- PCV, total protein, Glucose, BUN, ALT, ALK Phos, Creatinine, NA, K, CL Albumin, Amylase, Phosphate, Bilirubin, Ca, Cl

Pets over 7 year OR any age with medical problems- PCV, total protein, Glucose, BUN, ALT, ALK Phos, Creatinine

For the comfort of your pet, an injection of pain medication will be given may be given at the time of all surgical procedures. Pain medications may also be sent home for your pet.

Check any additional services you would like performed while your pet is under anesthesia:
